ACCESSORIES**

Lennox Glass Door Options

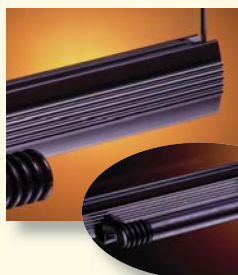

If there's one fireplace accessory that clearly adds elegance, style and safety to any Lennox fireplace installation, it's bi-fold glass doors. Available in a variety of sizes that fit many of our wood-burning fireplaces, and one of our most popular gas-burning models, these beautiful optional doors provide unobstructed views of the fire, plus extra protection and cleanliness. Bi-fold design makes it easy to open and close them with limited clearance. Your choice of finishes – black, polished brass or brushed stainless – add significant decorator appeal. For super premium construction, select our Symphony doors. Whatever you choose, you'll neatly add that beautiful finishing touch.
